

# 105W X-SERIES

CO2 Laser Tube

INDUSTRY LEADING  
**1 YEAR**  
**WARRANTY**

FACTORY OEM REPLACEMENTS

## DESCRIPTION:

Get the security of knowing you have maximum power from any tube purchased from Boss Laser. We use watt readers to confirm a quality spot and wattage. Most glass CO2 laser tubes are under powered by at least 15%. Tube and power supply testing ensures you get 100%+ power. Metal sealed 105 watt output CO2 laser tubes can quickly be installed on most CO2 laser machines. Call us if you need help.

Longer life span, up to 12,000 hours

We package and ship with a great amount of care and effort to ensure tubes arrive on time and in one piece!
